

# Sirajul Islam

## Web Developer

### PROJECTS

#### Project Name — **Inventory Management**

Time Period- 5 Days

- I have used mongoDB in the back-end to store the information of this web site.
- I have used TanStack Query in Front End to present back end data faster on this web site.
- I have used JavaScript for discount and quantity calculation on this website.

**Project-1:** <https://mgi-inventory-manage.web.app>

Front-end code 

<https://github.com/siraj3838/Inventory-Client>

Back-end code 

<https://github.com/siraj3838/Inventory-Server>

#### Project Name — **Retail-E-Commerce**

Time Period- 3 Days

- Added functionality to publish any product on this web site.
- To store all the information in the database, I have stored the information in MongoDB with axios at the font-end.
- I have created the functionality that specific user can update and delete his data.

**Project-2:** <https://retail-e-commerce-based.web.app>

Front-end code 

<https://github.com/siraj3838/Retail-E-Commerce-client>

Back-end code 

<https://github.com/siraj3838/Retail-E-Commerce-Server>

### CONTACT

Address 

Brahmanbaria, Bangladesh

Email 

[sirajul.islam583853@gmail.com](mailto:sirajul.islam583853@gmail.com)

Phone

### Objective

I like to do my work quietly. Continues to strive until a task I can complete does not deviate from the goal..

### SKILLS

#### Front-End

Javascript

React js

Firebase Authentication

Responsive/Mobile Design

#### Back-End

MongoDB

Express js

JWT Authorization

#### Front-End-Frameworks

Tailwind CSS

Daisy UI

Bootstrap 5

## Project Name — Library Management

Time Period- 4 Days

- Swiper js and active feedback functionality have been added to this website
- Added functionality that specific user cannot borrow more than one same book
- I have used jwt in this project so that all user information is secure.

**Project-3:** <https://library-manage.web.app>

Front-end code 

<https://github.com/siraj3838/Library-management-client>

Back-end code 

<https://github.com/siraj3838/Library-management-Server>

## Hobbies and Interest

- My Hobby- I like cricket a lot.
- I am more comfortable working in React and I am interested in learning more new features about JavaScript

## LANGUAGES

Bangla,

English- Fluent
